ISAP (International Society for Asphalt Pavement) is one of the most prestigious international organizations to promote asphalt pavement technologies. The Technical Committee on Asphalt Pavements and Environment (APE) is one of the TCs in ISAP and hosts the 5th ISAP APE Symposium 2019, together with the University of Padova (Italy).

The APE Symposium has already been organized four times, in: Zurich, Switzerland (2008); Fortaleza, Brazil (2012); Sun City, South Africa (2015); Tokyo, Japan (2017). The 5th Symposium will be held in Padova (Padua, Italy).

The Symposium 2019 will provide an excellent chance to share and disseminate research experiences concerning materials and technologies for asphalt pavements, conceived with sustainability purposes and environmental compatibility.

5th ISAP TC APE Symposium

5th ISAP TC APE Symposium
1st Announcement
Call for Papers

Topics are focused on the environmental aspects of asphalt pavements and are related, but not limited, to:

1. Sustainable pavement materials
2. Marginal materials in asphalt pavements
3. Pavement structures
4. Test methods and performance
5. Hot, warm or cold recycling
6. Maintenance and management methods
7. Environmentally friendly technologies
8. Urban heat island mitigation
9. Energy harvesting
10. Life cycle assessment

11th - 13th

2019

Venue

University of Padova, Palazzo del Bo, via VIII Febbraio 2, Padova (Padua, Italy)

Keydates

30.11.2018	Abstract submission
10.12.2018	Abstract acceptance
30.01.2019	Full paper submission
15.03.2019	Full paper notification
15.04.2019	Full paper final version
30.04.2019	Early registration
01.06.2019	Regular registration

Abstracts should be submitted to:
isap2019@dicea.unipd.it

Language

The official language of the Symposium is English
